### MISCELLANEOUS

- The agency has received a lot of interest in the EMT reserve program, we plan on doing a testing alongside our assessment center.
- I have signed and submitted a grant to FEMA for \$19,500, covid expenses.
- Staging lot hydro seeding was done with the left-over seed from the station build
- On June 30<sup>th</sup> HD2 had 6 calls in 46 minutes that resulted in 4 transports. We were able to split crews because we had a car with a double medic and a car with a new medic doing ride time. KVFR sent up 2 units to cover the 2 remaining calls. The agency needs another Life-Pak for the back up rigs.

## **SUPERINTENDENT'S REPORT – Julie Petersen**

**July 2022**

### **Joint Board Meeting**

The mutually agreed upon date/time for the joint KCHD#2 and KCHD#1 Board meeting is September 28<sup>th</sup> from 2:00 – 6:00. The location will be Station 99. We will advertise it as a special meeting for both districts so public will be welcome.

In addition to the ten Board members, your regular supporting cast of Rhonda, Julie, Scott and Geoff will be joined by Ron Urlacher Chief of Facilities, Tricia Sinek, Strategic Projects Coordinator, physician leadership and various operational leaders.

I am hopeful that staff will leave the meeting with an actionable list of shared projects and services that we can get to work on.

### **Levy Update**

The Kittitas County Auditor gave the proposed levy lid lift resolutions a thumbs up but, someone at the Department of Revenue has raised some concerns regarding the EMS levy. The original, 2015, resolution made .25 the permanent lid. The attorney at Foaster Garey has confirmed that increasing the levy beyond the .25 will require a super majority. They do not appear to have the same concerns regarding the hospital levy.

Ancillary Services report to Hospital District #2 Board of Commissioners  
July 2022

**Ancillary Service Operation Report:**

**Cle Elum Sidewalks**

On July 14 I attended a meeting with the City of Cle Elum to discuss the ongoing sidewalk construction and the impact on parking spaces at Urgent Care.

**Covid 19 Boosters**

KVH pharmacy is assisting KVFR to provide Covid 19 boosters to residents and staff at Meadows Place. Last Month we assisted in the vaccination of Pacifica staff and residents.

Respectfully submitted by Rhonda Holden, MSN

Health equity is achieved when individuals reach their highest potential for health. Hospitals and health systems are actively engaged in addressing inequities, reducing disparities and increasing opportunities for diversity and inclusion to strengthen their connection to the communities they serve.

"During the past two years, we have seen the COVID-19 pandemic exacerbate long-standing health care disparities and inequities. Systemic inequities, such as structural racism and economic disadvantages within diverse communities, continue to prevent individuals and communities from achieving optimal health, thus leading to avoidable differences in health outcomes.

"At the same time, the pandemic has elevated the need for hospitals and community-based organizations to connect, collaborate and take action to eliminate the drivers of poor health and advance equitable outcomes for patients, families and communities."

- AHA Institute for Diversity and Health Equity

## Why Vaccines are Important for Adults

Every year thousands of adults in the U.S. become seriously ill and are hospitalized because of diseases that vaccines can help prevent. Many adults even die from these diseases. By getting vaccinated, you can help protect yourself from much of this unnecessary suffering. Even if you received the vaccines you needed as a child, the protection from some vaccines can wear off. You may also be at risk for other diseases due to your job, lifestyle, travel, or health conditions.

Vaccines can lower your chance of getting certain diseases. They work with your body's natural defenses to help you safely develop immunity to disease. This lowers your chances of getting certain diseases and suffering from their complications. For instance, Hepatitis B vaccine lowers your risk of liver cancer, HPV vaccine lowers your risk of cervical cancer, flu vaccine lowers your risk of flu-related heart attacks or other flu-related complications from existing health conditions like diabetes and chronic lung disease.

Some people in your family or community may not be able to get certain vaccines due to their age or health condition. They rely on you to help prevent the spread of disease.

You have a busy life and too much responsibility to risk getting sick. Vaccines can help you stay healthy so you don't miss work. If you can avoid getting sick, you will have more time for your family, friends and hobbies. Getting recommended vaccines can give you some peace of mind. You will have the best possible protection available against a number of serious diseases.
